Frequently Asked Questions

We've added a frequently asked questions to address the common questions that have been coming in.

Better Database Search

Previously search was pretty limited. It was based just on title. Now, search is much more robust and will search through idea summaries to provide more accurate results.

More Browsing for Free Members

Previously free members could only view the first page of the idea database and not perform any searching. While viewing the ideas in depth requires starter plan or higher, free members can now get a better preview of what the database offers to decide if they'd like to upgrade.
